Project Experience:

Name of project: Third Greater Mekong Subregion Corridor Towns Development Project, Loan 3663-MYA, Project implementation support consultant (48175-002)

Year: 2020 - ongoing

Location: Myanmar

Client: ADB (with Finnish Consulting Group)

Main project features: Support the executing agency, PMU, Mon State and Kayin State Governments and their PIUs in all project implementation, administration, management and monitoring activities through training and assistance. The project contains water treatment and distribution systems development and solid waste management development in Mawlamyine and Hpa An towns.

Position held: International Social Safeguards and Gender Specialist

Activities: Provide capacity building and training to PIUs in ADB social safeguards, resettlement and gender issues and implementation of their measures. Design and implement baseline socio-economic survey, community consultations and participation of affected people. Update resettlement plans following detailed engineering design. Assist PIUs in consultations and information dissemination to all relevant stakeholders, including public awareness campaigns on environmental sanitation, and in implementation of the Gender Action Plan to ensure equal participation and project benefits for women and vulnerable groups.

Name of project: Second Decentralized Public Service and Financial Management Sector Development Program, TA-8929 CAM

Year: 2019

Location: Cambodia

Client: ADB Manila

Main project features: Project component of the program will establish a National School for Local Administration (NASLA) to support government efforts for sustainable, structured skills development for staff of sub-national agencies and to meet their mandate for expanded service delivery.

Position held: International Social Safeguards Specialist

Activities: Social impacts Due Diligence for the planned construction of NASLA.

Name of project: Rural Roads Improvement Project III, ADB Loan No. 3678-CAM/ Grant 0581-CAM

Year: 2019 - ongoing

Location: Cambodia

Client: ADB (with Korea Consultants International)

Main project features: Rehabilitation of approx. 360km of rural roads in five provinces.

Position held: International Social Development and Safeguards Specialist

Activities: Provide training and assistance to the executing agency, the Ministry of Rural Development, in implementation of the Project Community Participation Framework, including assessment of impacts, designing and undertaking a baseline socio-economic survey, undertaking transect walks and participatory community consultations, voluntary donation procedures, developing monitoring tools and undertaking monitoring.

Name of project: Greater Mekong Subregion (GMS) Southern Economic Corridor (SEC) Towns Development Project, ADB Loans 2983 (SF)/8265 (SCF), Grants 0334 (UEIF)/0335 (SCF)-CAM

Year: 2019 - ongoing

Location: Cambodia

Client: ADB (through NJS Consultants Co. Ltd.)

Main project features: Improvement of urban infrastructure in four GMS SEC towns; government capacity strengthening and strategic local development planning.

Position held: International Social Safeguards and Resettlement Specialist

Activities: Social impact assessment, Due Diligence and preparation of Resettlement Plans for subprojects in the project towns.

Name of project: Appraisal of the Public Sector Investment Facility (PIF) Project Proposal in Vietnam, Kien An Sanitation, Sewerage and Drainage Project

Year: 2018/19

Location: Vietnam

Client: Ministry for Foreign Affairs of Finland, MFA (with Finnish Consultancy Group, FCG)

Main project features: Project proposed by Haiphong city in Vietnam for funding through the PIF instrument of the MFA, focused on upgrading the wastewater and drainage system and construction of a wastewater treatment plant in Kien An district of the city.

Position held: Team Leader, Development Expert

Activities: Undertake an independent analysis of the proposed project's relevance, impact, effectiveness, efficiency, feasibility and sustainability for accountability and decision-making in accordance with Finland's Development Policy and OECD/DAC project evaluation criteria; assess the proposed project's compatibility with the policy environment in Vietnam, with sector strategies, plans and other initiatives; and assess the proposed project's eligibility for soft financing according to PIF appraisal criteria.

Name of project: Ho Chi Minh City Wastewater and Drainage System Improvement Project, ADB TA-9205 VIE

Year: 2018-19

Location: Vietnam

Client: ADB (with Finnish Consultancy Group, FCG)

Main project features: Urban wastewater and drainage infrastructure improvement planning for a proposed ADB loan.

Position held: Social, Gender and Community Development Specialist

Activities: Social impact assessment of the project's long and short-term impacts and benefits for different groups of people; design and implement Comprehensive Catchment Survey with socio-economic baseline on a sample of 2,000 households including existing wastewater-sanitation conditions, water-related health and the related behavior, priorities and affordability; design qualitative information collection through Focus Group Discussions and Key Informant Interviews, focused on stakeholder awareness on environmental sanitation, information needs and priorities and participation options; ADB safeguards preparation, including Poverty and Social Assessment, Gender Action Plan, Stakeholder Analysis, Stakeholder Communication Strategy and Participation Plan.

Name of project: Skills for Competitiveness Project, ADB TA9423-CAM

Year: 2018

Location: Cambodia

Client: ADB (with Finnish Consultancy Group, FCG)

Main project features: Preparation of a technical and vocational education and training (TVET) sector project to support improvement of quality and relevance of post-secondary TVET education and work-based learning with industry linkages for high-level skills development for industrial development.

Position held: International Social Development and Gender Specialist

Activities: Undertake gender, poverty and social assessment of the project impacts and design features to enhance education and employment opportunities for women and poor low-skilled workers. Mainstream gender in all components of the planned project. Prepare Social Due Diligence, Poverty and Social Assessment, Gender analysis and Gender Action Plan.

Name of project: Technical and Commercial Advisory Services for the Development of a Utility Scale Solar PV Park in Cambodia, ADB TA-8340 REG Supporting Regional Project Development for Association of Southeast Asian Nations Connectivity

Year: 2018

Location: Cambodia

Client: ADB (with Juru Energy Ltd)

Main project features: Feasibility study for a 100MW solar park and 40km high voltage transmission line

Position held: Resettlement/Social Impact Specialist

Activities: Social impact assessment and design of required mitigation measures for identified negative impacts from the project; design and supervise household baseline census and IOL surveys and consultations implementation among people to be affected by the project. Prepare Social Due Diligence, Land Acquisition and Resettlement Plan, Stakeholder Communication Strategy, SPRSS. Advise Project Owner (Electricité de Cambodge) in stakeholder communication, land acquisition and resettlement procedures and measures.

Name of project: ESIA for My Ly – Nam Mo 1 Hydropower Projects (2 projects)

Year: 2016–2017

Country: Vietnam

Client: My Ly and Nam Mo 1 HPP JSC / MIGA & Goldman Sachs (with Enviro -Dev)

Main project features: Environmental and social impact assessment and mitigation planning for two transboundary hydropower projects in border rivers between Vietnam and Laos which are being considered for financing by the MIGA (of the World Bank Group) and Goldman Sachs.

Position held: International Deputy Team Leader - Social impacts and resettlement

Activities: Undertake social impact assessment of the planned projects and prepare Feasibility Study. Design and supervise implementation of socio-economic data collection, village meetings, focus group discussions and key informant interviews. Assure that acceptable mitigation management and safeguards are put in place. Includes Free, Prior and Informed Consent (FPIC), Environmental and Social Management Plan (ESMP), Resettlement and Ethnic Minority Livelihoods Restoration Plan (REMLRP), Public Consultation and Disclosure Plan (PCDP) according to IFC-MIGA/WB group benchmarks and safeguards. 1000+ ethnic minority poverty households in Vietnam and Laos subject to relocation.

Name of project: Off-Grid Renewable Energy Demonstration Project, ADB TA8657-MYA

Year: 2015–2017

Country: Myanmar

Client: ADB (with Full Advantage Co Ltd/Nexant Asia)

Main project features: Design and implementation of off-grid renewable energy based systems in pilot villages; strengthen the capacity of government institutions to design and implement small-scale renewable energy systems in off-grid areas.

Position held: Gender Specialist/Community participation

Activities performed: Undertake resources and capacity analysis regarding gender issues in project-related government agencies; mainstream gender in all capacity building provided by the project and ensure women's participation in all project-related training and capacity building; ensure gender balance in village electrification committees and technical training; provide training for energy project planning and implementing agencies in community participation and gender mainstreaming, prepare training module on Community Participation and Gender Mainstreaming in Mini-grid Projects for a guidebook prepared by the TA for ADB publication (*ADB 2017, Developing Renewable Energy Mini-Grids in Myanmar – A Guidebook*).

Name of project: Sustainable Infrastructure Assistance Program – Strengthening Community Participation in Project Design, Implementation, and Monitoring in Regional Roads Development Projects (Subproject 5), ADB TA 8530-INO

Year: 2015–2017

Country: Indonesia

Client: ADB (with Dainichi Inc.)

Main project features: Develop methodology for improved communication and community participation throughout the project cycle in road construction projects through stakeholder interaction, analysis and Lessons Learned from the ongoing Regional Roads Development Project in West and North Kalimantan and in East and Central Java.

Position held: Community Development and Communication/Indigenous Peoples Specialist

Activities performed: Design participatory tools for focus group discussions and key informant interviews and implement collection of data in the project areas; provide data analysis and prepare socio-economic profiles of the project-affected communities; prepare Stakeholder analysis (SA), Communication Strategy and Participation Plan (CSPP) for target communities; design a Communication Package for community participation with 6 thematic Tip Sheets (TSs) for project planning and implementation with Informed Communication and Participation as a core element to be applied in future road projects by the Ministry of Public Works and provide training to staff of executing agencies. TSs themes: 1. Communication, 2. Land acquisition and resettlement, 3. Health, Safety and Environment, 4. Livelihoods and Environment, 5. Customary (Indigenous) communities, 6. Gender.

Name of project: Policy Review and Advisory on the Promotion of Renewable Energy (RE) and Energy Efficiency (EE) in Industries in Pakistan

Year: 2016

Country: Pakistan

Client: UNIDO (with Full Advantage Co Ltd.)

Main project features: Review of RE and EE policy in Pakistan, review and analysis of international experiences and lessons from RE & EE incentives for recommendations for policy development in Pakistan.

Position held: Gender Specialist

Activities performed: Review the existing RE and EE policy in Pakistan in terms of gender inclusion; implement strategic interviews of key informants; undertake a review and an analysis of international experiences and lessons from RE & EE incentives in other countries and based on them, provide recommendations for gender mainstreaming in RE & EE policy in the industrial sector in Pakistan.

Name of project: Transport Connections in Northern Mountainous Provinces Project, ADB-VIE 41433-012

Year: 2012–2016

Country: Vietnam

Client: Project Joint Coordination Committee of six Provincial Departments of Transport/ ADB (with CDM-Smith Inc.)

Main project features: Rehabilitation/reconstruction of provincial roads in six poor rural provinces

Position held: Ethnic Minority and Gender Specialist

Activities performed: Prepare Gender and Ethnic Minority Development Plan (GAEMDP) with specific implementation plan for each province; provide capacity-building to Provincial PMUs (Provincial Department of Transportation) in implementation and monitoring the GAEMDPs; design and prepare community-based public awareness campaigns in HIV/AIDS and human trafficking prevention and in road safety, supervise and monitor their implementation in each province, supervise training workshops; train and supervise national staff; design monitoring indicators and procedures for quarterly project progress monitoring, provide final report based on evaluation of the activities and containing the lessons learned.

Name of Project: Health Human Resources Sector Development Program, ADB-VIE40354-01

Year: 2012–2015

Country: Vietnam

Client: Ministry of Health/ ADB

Main project features: 5-year ADB loan programme for human resources development in health sector planning, management and service delivery with policy development support, healthcare procedures development, training and capacity building, medical training curricula development.

Position held: Social Development/Gender and Ethnic Minority Specialist

Activities performed: Undertake a Review and analysis of the for health sector relevant GoV and ADB policies on gender and ethnic minorities/indigenous people; prepare Gender and Ethnic Minority Strategy implementation plan for the Program, according to ADB social safeguards requirements combined with Government of Vietnam (GoV) policy and ongoing initiatives in the Ministry of Health; mainstream social development and gender issues into all Program components and activities; prepare implementation and monitoring guidelines and provide gender training to the PMU and PIUs; integrate relevant baseline data and indicators into the Program M&E system.

Name of project: Village Water Resources Management Project Nepal, Planning of Completion Phase 2015-2020

Year: 2014

Country: Nepal

Client: Ministry for Foreign Affairs of Finland (with Niras)

Main project features: Design of project completion phase with focus on ensuring post-project sustainability and continued development on a project supporting rural WASH, irrigation, micro-hydro and related livelihoods development and institutional capacity building in extremely poor remote hill and mountain communities in Far and Mid Western Nepal.

Position held: Rural Livelihoods Specialist

Activities performed: Prepare analysis combining existing documentation and experiences/ lessons learned through primary data collection in project villages of the different available and potential livelihoods development options, challenges and activities; formulation of gender inclusive livelihoods development approach, strategy and work plan for investment, training and activity support to be provided through the Project.

Name of project: Project Preparatory Technical Assistance for the Greater Mekong Subregion (GMS) East-West Economic Corridor (EWEC) Eindu to Kawkareik Road Improvement, ADB TA 8330-MYA

Year: 2014

Country: Myanmar

Client: ADB (with Finnmap and SMEC)

Main project features: Feasibility study and project design including ADB safeguards preparation for improvement of the 70-km road section from Eindu to Kawkareik in Kayin state, Myanmar, as part of the EWEC.

Position held: Social Development Specialist

Activities performed: Design and implement collection of quantitative and qualitative data in the project areas for preparing socio-economic profiles and social and poverty assessment of the project-affected communities; identify project components and design options to mitigate risks and enhance project benefits for the local people including ethnic minorities and vulnerable groups in the project areas; provide training in ADB safeguards (involuntary resettlement and indigenous people) for the Ministry of Construction (MOC) staff. Prepare Poverty and Social Assessment and Consultation and Participation Plan (CPP).

Name of project: The appraisal of Upgrading the Rainfall, Storm and Lightning Detection Capabilities of National Hydro-Meteorological Service, Socialist Republic of Vietnam

Year: 2014

Country: Vietnam

Client: Ministry for Foreign Affairs of Finland (with Finnish Consultancy Group)

Main project features: Project appraisal to provide the Ministry for Foreign Affairs of Finland with an independent review and analysis for accountability and decision making of a proposed project and its eligibility for funding through the Finnish concessional credit scheme.

Position held: Team Leader and Socio-economic Specialist

Activities performed: Prepare an analysis of the proposed project through existing documentation and collecting first-hand information from various sector actors and beneficiaries, focusing on the project's social, environmental, technical and institutional relevance, effectiveness and efficiency, impact and sustainability, based on the OECD/DAC project appraisal criteria, also assessing the project's compliance with the Finnish Development Policy, inclusive its cross-cutting objectives (climate sustainability, gender equality, and reduction of inequality), and with the Vietnamese policy and strategies related to climate change response.

Name of project: Project Preparatory Technical Assistance for the Second Regional Roads Development Project, RRDP II, ADB TA 8138-INO

Year: 2013

Country: Indonesia

Client: ADB (with Cardno AU)

Main project features: Feasibility study and project design including ADB safeguards preparation for road rehabilitation in three provinces (West Kalimantan, East Java and Central Java).

Position held: Indigenous Peoples Specialist

Activities performed: Through socio-economic baseline survey and participatory stakeholder consultations prepare socio-economic profiles of the project-affected communities and identify the indigenous peoples (IP), assess project impacts on IPs, prepare Indigenous Peoples Development Plan with enhancement of positive project impacts and mitigation measures for negative impacts including cost estimate and time plan; assess the institutional capacity and propose project implementation capacity building training for the executing agency.

Name of project: Sustainable Hydropower Development: A Norwegian-Georgian Cooperation Programme

Year: 2013

Country: Georgia

Client: Norsk Energi (Norwegian Energy) (with Enviro-Dev)

Main project features: Training of trainers programme on Environmental and Social Impact Assessment (ESIA) with participants from ministries, NGOs, Academia and consulting companies.

Position held: Stakeholder Communication Specialist

Activities performed: Lead trainer on stakeholder communication methods on a training course covering crucial social and environmental issues in hydropower ESIA context.

Name of project: Final review of the Restoration/Rehabilitation of Waterways Project in the Philippines Phase I

Year: 2012

Country: Philippines

Client: Ministry for Foreign Affairs of Finland (with Finnish Consultancy Group)

Main project features: Final evaluation of a concessional credit project on flood prevention and control through provision of dredging equipment and technical assistance.

Position held: Team Leader and Socio-economist

Activities performed: Prepare an evaluation according to the OECD/DAC evaluation criteria covering the relevance, impact, sustainability, efficiency and effectiveness of the project owned by the Department of Public Works and Highways and implemented in six different regions of the country in Luzon, Mindoro and Mindanao islands. Assess the technical, environmental, social, economic, planning and management, coordination, O&M, and monitoring aspects and performance of the project, provide recommendations for the next phase of the project, including the needed institutional capacity development.

Name of project: Mid-term Evaluation and Future Projects Identification in the Water Sector

Year: 2011

Country: Occupied Palestinian Territory

Client: Ministry for Foreign Affairs of Finland (with Orgut Consulting)

Main project features: (1) Mid-Term evaluation of a water networks rehabilitation and construction project in eight villages in North-West Jerusalem according to OECD/DAC evaluation criteria. (2) Independent identification of the current water and sanitation sector situation in Palestine and preparation of potential future project concepts in the sector for consideration for funding by the Ministry for Foreign Affairs of Finland.

Position held: Cross-cutting Issues Specialist (Gender, Human rights, Equity and Equality)

Activities performed: Assess project progress using OECD/DAC evaluation criteria, conduct stakeholder consultations and assess stakeholder benefits, water utility management rationale and institutional development situation, provide analysis, recommendations and guidelines for the water utility management; Identify, analyse and rank potential water-sanitation sector projects using a combined technical, social, economic and environmental sustainability criteria for alternative projects for funding.

Name of project: Impact Evaluation of Rural Development Programmes in Viet Nam

Year: 2010–2011

Country: Vietnam

Client: Ministry for Foreign Affairs of Finland (with Orgut Consulting)

Main project features: Final evaluation of two long-term rural development programmes funded by the Government of Finland.

Position held: Rural/Social Development Specialist

Activities performed: Prepare an independent evaluation of the effectiveness, sustainability and impact of the Thua Thien Hue Rural Development Programme and of the Quang Tri Rural Development Programme on major Project components: Rural livelihoods and services; Rural infrastructure (roads, water and sanitation); Local government capacity building. Emphasis on the poverty impact analysis and stakeholder participation/ownership and capacity development process through the programme.

Name of project: **Preparing the Hanoi and Ho Chi Minh City Metro Rail System Projects, TA- VIE 4900, and the Second Northern GMS Transport Network Improvement Project, RRP VIE 39500-02 (2 projects)**

Year: 2010

Country: Vietnam

Client: ADB Manila

Main project features: Preparation of social safeguards documents for three major infrastructure development projects.

Position held: Gender Specialist

Activities performed: Review, assess and recommend measures to mainstream gender issues and actions into social impact assessment and social action plan in each project. Assess project-related vulnerabilities and risks of HIV/AIDS and human trafficking. Prepare Gender Action Plans, Stand-alone Consultation and Participation Processes, and plans for HIV/AIDS and Human Trafficking Prevention and Awareness Programs.

Name of project: **Vietnamese Sustainable Brick-making Project**

Year: 2009

Country: Vietnam

Client: SDC/Entec AG

Main project features: Study on socio-economic and gender impacts of changing environmental legislation on small-scale rural brick industry enterprises with majority of female workers in Nam Dinh Province.

Position held: Team Leader, Socio-economic Development Specialist

Activities performed: Prepare and lead a socio-economic and gender impact study, train and supervise staff in social and fieldwork methodologies (qualitative and quantitative), in field data collection, analysis and report writing.

Name of project: **Chia Se Vietnam-Sweden Poverty Alleviation Programme**

Year: 2007–2009

Country: Vietnam

Client: Government of Vietnam and Sida (Swedish International Development Cooperation Agency) (with Orgut Consulting)

Main project features: Community mobilization and participatory planning methodology development program, based on a bottom-up approach and equal participation of different groups of people in poverty alleviation/ community development through Local Development Funds at village level, focusing on six activity fields: Production development and income generation, education, health, infrastructure (roads, water supply and sanitation), natural resources management/ environmental protection, and social security. Training and capacity building of stakeholders at different levels (village, commune, district, province). Main emphasis on participation and capacity building of different stakeholder and beneficiary groups at all levels in planning, decision-making, implementation and monitoring of progress of activities and results.

Position held: International Province Advisor and Team Leader for national advisory staff in Quang Tri Province

Activities performed: Provide support, advice and training for the provincial government and Project Management Units at province, district and commune levels in poverty alleviation/rural development concerning policy, planning, implementation, management, and monitoring and evaluation of activities in the six activity fields of the programme. Support all project-funded practical activities in communes and villages, including training. Provide guidelines for and analysis of activities and lessons learned. Design a Gender Impact Study for all the three Program provinces (Ha Giang, Yen Bai, Quang Tri). Act Team leader for national advisory staff. As a separate activity design and lead an internal evaluation of the project management at all unit levels from national to village in the three Program provinces, provide analysis and evaluation report.

Name of project: Renewable Energy for Remote Commune Sector Project, RSC-C80403

Year: 2008

Country: Vietnam

Client: ADB

Main project features: Preparation of proposed loan and technical assistance grant for off-grid, alternative grid extension electrification of remote rural areas through mini hydropower, solar-diesel and wind energy alternatives in Northern, Central and Southern Vietnam.

Position held: Team leader, Social and Poverty Specialist

Activities performed: Prepare socio-economic and poverty analysis of five core sub projects for rural electrification with mini hydropower, solar-diesel and wind energy alternatives through participatory data collection; prepare evaluation of the impacts and affordability of electrification for poor and ethnic minority households, potential of productive local use of electricity for poverty reduction; prepare according to ADB requirements Guidelines for Social Analysis, Consultation and Participation Strategy, Ethnic Minority Development Strategy, Gender Strategy, HIV/AIDS and human trafficking prevention Strategy, Plan for supportive measures for poor stakeholders to benefit from electrification.

Name of project: Livelihoods restoration and development plan for Song Bung 4 Hydropower project affected people

Year: 2006

Country: Vietnam

Client: ADB Manila

Main project features: Preparation of a grant proposal for livelihoods restoration and development as a special component to Song Bung 4 Hydropower Project Resettlement Plan.

Position held: Resettlement and Livelihoods Specialist

Activities: Prepare Poverty analysis and Livelihoods restoration and development plan including budget related to resettlement planning for project-affected ethnic minority people.

Name of project: PPTA on Song Bung 4 Hydropower Project, TA 4625-VIE

Year: 2006

Country: Vietnam

Client: ADB (with Sweco Int.)

Main project features: Feasibility study for Song Bung 4 Hydropower Project.

Position held: Social Development/Gender and Ethnic Minority Development Specialist

Activities performed: Socio-economic impact assessment with collection of quantitative and qualitative data; train and supervise national staff in using participatory data collection methods and conducting participatory consultations in local communities in different Project areas (reservoir, up- and downstream, project construction lands); undertake stakeholder consultations; prepare data analysis, baseline socio-economic and poverty profiles and impact analysis of the affected communities; prepare Ethnic Minority Development Plan, Gender Action Plan, and Social Management Plan.

Name of project: EIA/SIA for the Cambodian side of the Se San River and the Sre Pok River (2 projects)

Year: 2005–2006

Country: Cambodia

Client: Project 1: Electricity of Vietnam – EVN; Project 2: Sida & Norad

Main project features: EIA and SIA of the downstream consequences in Cambodia caused by the Yali hydropower plant in Vietnam (Project 1)/ planned hydropower development in Vietnam (Project 2) in Greater Mekong Subregion (GMS) development context.

Position held: Socio-economic and Stakeholder Specialist

Activities: Rapid Social Impact Assessment, based on primary data and information collection in affected areas along the Rivers and on available secondary background data; Impact assessment report including recommendations for mitigation and compensation for the affected communities and for future hydropower planning.

Name of project: National Hydropower Plan Study, Stage 2

Year: 2004–2005

Country: Vietnam

Client: Electricity of Vietnam, EVN/Sida & Norad (with Sweco Int.)

Main project features: Prefeasibility assessment and internal ranking of 33 potential hydropower projects in four river basins, integrated technical, economic, environmental, social, water resources and hydrological assessment.

Position held: Socio-Economic and Regional Planning Specialist

Activities performed: Design and implement socio-economic baseline surveys and collection of quantitative and qualitative data in project areas; process and analyse data for evaluation of alternative hydropower sites. Train and supervise teams of national consultants in social survey and field data collection methods, in data processing and reporting. Prepare socio-economic assessment of each planned hydropower site in local and regional perspective, and initial resettlement and mitigation planning.

Name of project: Song Hinh Multipurpose Project

Year: 2002–2003

Country: Vietnam

Client: Electricity of Vietnam EVN /Sida (with Sweco Int.)

Main project features: Comprehensive capacity building programme for hydropower staff in managing post-project implementation situations in different sectors (technical, environmental, social).

Position held: Socio-Economic Expert

Activities performed: Train and supervise staff at three hydropower plants in socio-economic, health and gender issues and community development and in monitoring long-term poverty, health and gender impacts in resettlement areas.
